

CLOUDFORCE

BUSINESS SUPPORT

GIVING YOU THE POWER
OF BUSINESS EFFICIENCY

**Cost Effective and Professional
Bookkeeping and Administration Services**

CloudForce gives you back valuable time and resources

CloudForce Business Support allows clients to focus on their core competencies. Improved efficiencies, cost savings and operational effectiveness are critical priorities of our service.

Our range of back office services helps clients to reduce their operational and recruitment costs, allows them to concentrate on their core activities (rather than support activities) and their business functions can be completed faster and with a better quality outcome.

CloudForce Business Support, a division of Powers Financial Group, has multiple offices in Australia and Sri Lanka that maintain a first class service by selecting highly qualified and experienced professionals to service clients' business requirements. We provide clients with a tailored service to meet their needs, allowing our clients to gain efficiencies and focus on what they do best.

The CloudForce bookkeeping service gives you back your time and resources by supporting you with your

bookkeeping requirements, from monthly financial reports, bank reconciliations and debtor management to entering and payment of supplier invoices and arranging your payroll.

Our bookkeeping packages are comprehensive and cost effective – we provide scalable and flexible options to suit your business, irrespective of the size and nature of the business, allowing you to budget accurately for your bookkeeping needs. Costs depend on the business size and number of monthly transactions or whether you need support for a one-off project.

What if your books and records aren't up to date? CloudForce also offers a bookkeeping rescue package that brings you right up to date and fixes any issues you may have with your books and records.

Switching to CloudForce has never been easier. Ask us about our set-up service and we can get you online immediately.
